

# Ferdinand Niyongira

Dallas, Texas | 469-334-6990 | [ferdinandniyongira@gmail.com](mailto:ferdinandniyongira@gmail.com) | [LinkedIn](#) | [GitHub](#)

## SUMMARY

Frontend Developer skilled in JavaScript, HTML, CSS, and React, with hands-on experience building responsive, high-performance web applications. Translates designs into dynamic, user-friendly interfaces while ensuring technical feasibility and optimal speed. Brings a strong focus on UI/UX and a commitment to driving business value through efficient code and innovative solutions.

## EDUCATION

### Coding Temple

*Certificate, Full Stack Software Developer*

- **Coursework:** Full Stack Software Developer

**Dec 2024 - Present**

### Dallas Baptist University

*Master of Science, Supply Chain Management*

**Aug 2021 - May 2023**

### University of Nebraska-Lincoln

*B.S., Integrated Science*

**Aug 2016 - May 2020**

## EXPERIENCE

### Coding Temple

*Software Engineer Apprenticeship*

- Developed responsive web applications using HTML, CSS, JavaScript, Bootstrap, and React, translating design concepts into high-quality, performant code.
- Designed interactive games and CRUD-based programs with menu systems using Java, Python, and JavaScript, emphasizing user interface consistency and technical feasibility.

**Dec 2024 - Present**

### DHL Supply Chain-Kohler

*Quality Technician II & Data Analyst*

- Reduced customer return rate from 30% to 10% by establishing efficient real-time auditing methods to inspect products before trailer loading.
- Enhanced shipment quality by implementing an effective inspection process for product quantity and quality during loading.
- Instituted a monthly data analysis process to identify the top 5 associates for targeted training based on error metrics from putaway, picking, staging, and loading processes.
- Conducted daily research that produced actionable insights, reducing customer-reported shortages by 25% and increasing overall satisfaction.
- Supported upper management decision-making by generating daily reports and presenting audit findings on receiving, picking, staging, loading, and customer claims.

**Jul 2023 - Present**

*DeSoto, Texas*

### Food Innovation Center

*Research Assistant*

- Identified and measured phytic acid content and phytase activity in historical and modern hard winter wheat genotypes, and the results were used for the research in plant breeding and disease management practices. Findings were published in the PLOS ONE Journal.
- [Publication-co-author: <https://journals.plos.org/plosone/article?id=10.1371/journal.pone.0247809>]

**Aug 2018 - May 2020**

*Lincoln, NE*

## PROJECTS

### Defeat-Evil Wizard (Python)

- Applied Python OOP principles to design and implement an interactive game between the Evil Wizard and its opponents (heroes)
- Engineered a Menu System to control special abilities, attacks, healing, and viewing statistics

### Event Center (Bootstrap)

- Re-designed Event Center project using Bootstrap layouts and components to make a responsive website with added functional features such as sign in, sign up, and buy tickets buttons, and a Slideshow.

### Open Trivia Database Quiz app (JavaScript & React)

- Used Event Handling and Api Fetch Methods together with forms to create the interactive quiz app, which allows users to try different types of questions ranging from easy to difficult levels.

### Full Stack: Marvel Character (Python, SQL, JavaScript, React)

- Created API using MySQL and Flask, and SQLAlchemy, and allowed and used API to manage CRUD operations, including add, view, update, and delete characters.

### Student Management System (Java)

- Wrote a Command Line Interface program (CLI) that allows users to manage students' and teachers' records through functionalities mainly adding students/teachers, updating information, viewing details, and managing students' and teachers' courses.

## SKILLS

---

- **Programming Languages:** JavaScript, HTML5, CSS3, Python, Java
- **Frameworks & Libraries:** React, Flask, Bootstrap, SpringBoot
- **Databases:** MySQL, PostgreSQL, SQL Lite, MangoDB
- **Tools & DevOps:** Git/ GitHub, RESTful APIs, VS Code, Postman, IntelliJ IDEA
- **Soft Skills:** Communication, Time Management, Leadership, problem solving, Teamwork
